# Pavion's Fencing, Turnstiles, and Vehicle Gated Entry Solutions

## Enhanced Security with Fencing, Turnstiles, and Vehicle Gated Entry

Fencing, turnstiles, and vehicle gated entry solutions provide a robust defense for your property by controlling access and managing both pedestrian and vehicle traffic. Whether it's for an industrial facility, corporate campus, or high-security zone, these solutions create a secure perimeter, ensuring only authorized personnel and vehicles can access restricted areas. With integrated security features and advanced technology, Pavion's perimeter protection systems offer a comprehensive security layer for your business.

### **Stronger Perimeter Defense:**

Our fencing and vehicle gates create a solid first line of defense against unauthorized access, reducing the risk of theft, vandalism, or trespassing.

### **Efficient Access Management:**

Turnstiles manage pedestrian flow while vehicle gated entry systems ensure that only vetted vehicles gain access, improving both security and operational efficiency.

### **Enhanced Monitoring & Control:**

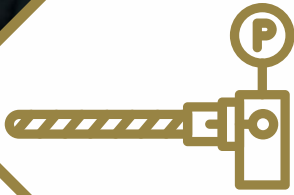

These systems offer clear boundaries and controlled entry points, making it easier to monitor and manage access to sensitive areas.

### **Reduced Security Costs:**

By automating entry points and reducing the need for on-site personnel, businesses can save on long-term security and staffing expenses.

### **Streamlined Traffic Flow:**

Automated gates and turnstiles reduce congestion at entry points, enhancing traffic management and improving the overall flow of people and vehicles.

## Key Features

Pavion's Fencing, Turnstile, and Vehicle Gated Entry solutions are designed to provide scalable, high-quality security for a variety of environments:

**High-Security Fencing:** Durable, robust fencing options designed to withstand attempts of breach while providing clear boundaries for restricted areas. Available in various heights and materials to meet your facility's needs.

**Turnstile Systems:** Our turnstiles offer controlled access for pedestrians. Whether you need full-height, optical, or tripod turnstiles, we provide solutions that balance security with ease of passage.

**Vehicle Gated Entry:** Automated vehicle gates that ensure secure access for authorized vehicles. Our systems offer barrier arms, sliding gates, and retractable bollards for effective access control.

**AI-Driven Detection:** Integrated AI-powered surveillance can monitor entry points, automatically flagging suspicious behavior, enhancing the overall security infrastructure.

**Access Control Integration:** Turnstiles and vehicle gates seamlessly integrate with existing access control systems, ensuring smooth operation and centralized security management.

**Weather-Resilient Solutions:** Built to withstand harsh environmental conditions, our systems provide reliable protection, regardless of weather or external elements.

## Industries We Serve

Pavion's perimeter protection solutions are ideal for a variety of industries that require robust security for high-value assets, sensitive areas, and controlled access:

**Education:** Secure campus perimeters and control access to sensitive areas like dormitories, laboratories, and offices.

**Healthcare & Pharmaceutical:** Protect critical healthcare infrastructure, pharmaceutical storage, and restricted zones from unauthorized access.

**Government & Defense:** Ensure high-level security for government buildings, military installations, and other sensitive facilities.

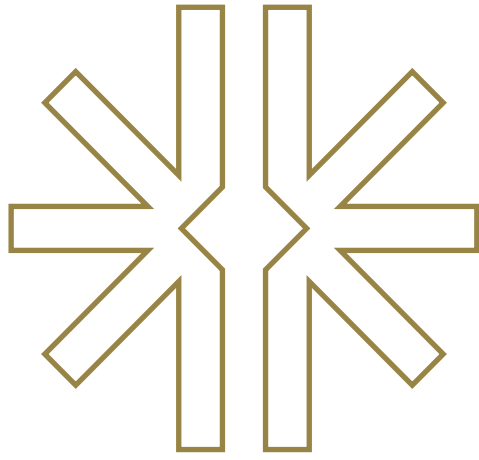

**Energy & Utilities:** Protect power plants, substations, and critical infrastructure from physical threats and unauthorized vehicle entry.

**Transportation & Infrastructure:** Control access to transportation hubs like airports, railways, and ports, while ensuring smooth vehicular flow.

**Retail & Manufacturing:** Safeguard warehouses, storage areas, and corporate campuses from theft, vandalism, and unauthorized entry.

**Corporate:** Secure high-traffic areas and sensitive zones, enhancing security while maintaining efficient access management.

# Why Choose Pavion's Fencing, Turnstile, and Vehicle Gated Entry Solutions?

## Get Started

Protect your property with Pavion's Fencing, Turnstile, and Vehicle Gated Entry solutions. Contact us today to discuss your specific needs, and we'll work with you to design a perimeter security solution that enhances both safety and operational efficiency.

**Robust Security:** Our solutions provide a multi-layered defense for your property, combining high-quality fencing, turnstiles, and vehicle entry systems to create an effective security barrier.

**Customized Solutions:** We offer tailored systems that match your facility's specific needs, ensuring a flexible, scalable approach to perimeter security.

**Seamless Integration:** Pavion's systems integrate smoothly with your existing infrastructure, including access control and surveillance systems, to create a cohesive security solution.

**Improved Operational Efficiency:** Our automated systems reduce manual interventions, improving the flow of people and vehicles while maintaining high security standards.

**Low Maintenance & Long-Term Reliability:** Designed for durability, our systems are built to last, requiring minimal maintenance, and offering long-term reliability in securing your perimeter.

## Why Pavion?

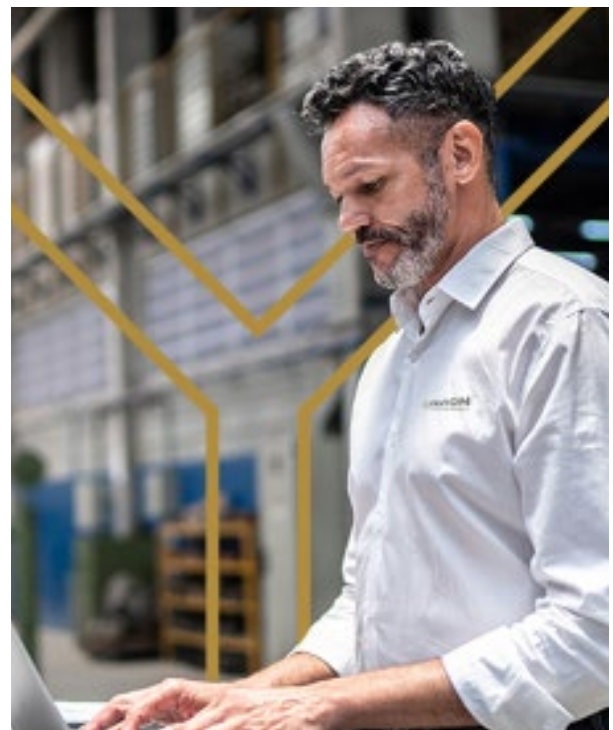

Pavion goes beyond delivering systems—we build long-term relationships. Our expert team works with you to design, implement, and support a security solution that aligns with your unique needs. Whether you're installing automated gates or securing restricted areas with turnstiles, Pavion ensures seamless integration and reliability.

Our commitment to excellence includes:

**Technology Innovation:** Stay ahead of evolving threats with advanced, AI-driven features and regular updates to your systems.

**24/7 Expert Support:** Enjoy expert assistance whenever you need it, ensuring your security solutions are always working at peak performance.

**Compliance & Peace of Mind:** Trust our expertise to navigate regulatory requirements and ensure your solutions meet industry standards.

## About Pavion

Pavion provides leading-edge Fire, Security, and Integration solutions across 70+ U.S. locations and 23 countries. Our team brings years of industry-leading expertise to protect what matters most to you.
