

*Pavion's PX Mobile Inspection Platform*

# **PX Mobile Inspection Drives Compliance and Efficiency at a Leading Cancer Hospital**

## Challenge

After more than 20 years with the same fire systems provider, a renowned cancer research hospital in Manhattan and surrounding areas opened bids for its Fire Alarm Test and Inspection Service and Maintenance contract. Key concerns with the previous contractor included delays in delivering inspection reports and a lack of transparency in servicing 24 facilities across New York and New Jersey.

## PX Mobile Inspection Benefits

- **Real-Time Visibility:** Immediate access to inspection and service data for better oversight.
- **Transparency & Accountability:** Digital records and audit trails ensure compliance and trust.
- **Efficiency:** Streamlined workflows reduce downtime and administrative burden.
- **Ease of Use:** Intuitive mobile interface enables quick adoption and effective field use.
- **Collaboration:** Shared access between service providers and clients improves communication and project management.
- **Compliance:** Meets NFPA and AHJ Compliance standards

## Solution

Pavion's Firecom team submitted a competitive bid, highlighting the use of Pavion PX Mobile Inspection, powered by fireNspec software, as a

major differentiator. During the evaluation process, hospital leadership received a live demonstration of the platform and a sample report tailored to meet AHJ and hospital compliance requirements. The deciding factor in awarding the contract was Firecom's ability to deliver real-time visibility, streamlined workflows, and transparent reporting through PX Mobile Inspection.

To prepare for the first inspection, Firecom collaborated with the development team to upload device data supplied by the hospital's facilities team. Firecom assigned experienced technicians to the inspection, and the onboarding process was supported by the software team.

Although the technicians had limited field experience with PX Mobile, its intuitive design enabled them to quickly learn and apply its features effectively. They navigated the platform with ease, ensuring accurate and comprehensive inspections of the hospital's fire safety systems.

PX Mobile Inspection ensures hospitals maintain strict compliance with NFPA standards and Joint Commission requirements by delivering real-time visibility, accurate documentation, and streamlined workflows. The solution automates inspection scheduling, captures detailed device data, and generates reports that meet regulatory guidelines, including AHJ and Environment of Care standards. With cloud-based access and transparent reporting, hospitals can quickly demonstrate compliance during audits, reduce risk of violations, and proactively address deficiencies—helping them safeguard patient safety and maintain accreditation with confidence.

PAVION EXPERIENCE

## We've Got You Covered

We call it the Pavion Experience. The lifecycle of services we deliver, from design through ongoing support, that helps keep your fire, security, and integration systems running while saving you time and money.

Pavion brings best-in-class solutions together. Through the entire project lifecycle, we work with our customers to solve their problems and help them overcome their challenges. So no matter your project, we meet your needs with a partner you can trust.

### Design

From the initial project kickoff to understanding your requirements, we'll design a solution that meets your needs with clear scope, bill of materials and comprehensive drawings.

### Technology & Integration

Once your design is approved, we deliver your technology with first-class implementation, engineering, change management and training.

### Service

With your solution fully implemented, Pavion offers multiple service offerings to make sure you get the most out of your Pavion Experience, with the highest level of reliability and customer service offered.

## About Pavion

Pavion connects and protects by providing Fire, Security, and Integration solutions to customers in 55+ U.S. locations and 22 countries. The company brings industry-leading experience to clients in the enterprise, healthcare, education, government, data center and retail industries. Its mission is to bring clarity and transformation to safety, security, and communication through technology and radical service. Learn more at [Pavion.com](https://pavion.com).

## Our Industries

We've built solutions for many different industries, and we're ready to provide you with the service and solutions you need to connect and protect what's important.
